

ABSTRACT OF THE DISCLOSURE

5 A footwear manufacturing system for providing an efficient and economical
system for manufacturing affordable custom footwear. The footwear manufacturing
system includes measuring a foot, creating a foot profile, transmitting the foot profile to
a manufacturing station, utilizing the foot profile to generate a positive impression
within a mold, and injecting the mold with a liquid forming about the positive
10 impression and hardening. Various foot measuring techniques may be utilized to create
the foot profile. The manufacturing station preferably utilizes a mold utilizing a
plurality of adjustable pins that manipulate a membrane within the mold to create the
positive impression.
